Super T Series With Eradicator Features and Benefits

Easy To Service And Maintain - Pump is mounted above liquid being pumped with only the suction line down in liquid.

Dual Bearing Protection – An atmospheric barrier along with two lip seals provide additional protection of the pump bearings (not available on 2" models).

Inspection Cover – Patented, lightweight inspection cover for easy access to the impeller without removing the entire backcover plate or piping. (2" – 8" models).

Self-Cleaning Wearplate - Incorporating a number of notches and grooves, as well as a revolutionary tooth (tooth used on T3 – T10 models), that helps break up stringy materials and pass them through the pump without impacting performance or interrupting service. This greatly reduces troublesome clogging and expensive downtime.

5 Year Super T Series Warranty

Up To 3" Diameter Spherical Solids Handling (4" – 10" models).

Removable Rotating Assembly – The entire rotating assembly can be removed without disturbing the pump volute or piping allowing the rotating assembly to be easily repaired or quickly replaced with a new ready to drop in assembly.
