

The 6' x 6' Above-Ground Lift Station is a fully customizable, compact, pre-engineered unit shipped complete from the factory. Just add power and connect piping. Outside, the neat, trim low-silhouette fiberglass cover blends with its surroundings. Fiberglass enclosure resists corrosion and provides protection from weather. Removable or hinged door panels provide easy access to pumps and robust NEMA controls for maintenance and service as well as vandal-resistant design for added security. The 6' x 6' fiberglass enclosure accommodates two pumps and motors sized to meet your requirements.

Features

Single Source Responsibility

Gorman-Rupp designs, engineers and manufactures the entire pumping system to ensure that the system meets your requirements and performs reliably year after year. If there is a problem with the system you only have to make one call. Gorman-Rupp is responsible for the entire system, from pumps and controls to the lights and fans in our enclosures.

Super T Series Pumps

Gorman-Rupp self-priming centrifugal solids-handling Super T Series pumps are specifically designed for sewage and industrial wastewater handling applications. The heavy-duty construction and easy-to-service design have made Gorman-Rupp T Series pumps the standard of the industry.

Controls

The Gorman-Rupp team of electrical, mechanical and hydraulic engineers work closely throughout the development of each pumping system to ensure that the entire hydro-electrical system works in harmony to meet your system requirements – accurately and reliably. All Gorman-Rupp controls are manufactured of the highest quality components and are available U.L. and C.S.A. listed (not standard).
